MUNICIPAL BY-LAWS.

BY LAW No. 69.

A By-law to provide for the Removal of Obstructions which prevent the Free Flow of Waters in Solly's Creek and Somenos Creek, in the Municipality of North Cowichan, and for borrowing on the Credit of the Municipality the Sum of \$3,000.00 for completing the same.

WHEREAS a majority in number and value of the owners, as shown by the last revised assessment roll of the Corporation of the District of North Cowichan, of the property hereinafter set forth to be benefited by the above-mentioned works have petitioned the Council of the said Corporation, praying that the obstructions which prevent the free flow of water in Solly's Creek and Somenos Creek aforesaid be removed for the benefit of the following properties, that is to say: -

Section.	Range.	District.	Name of Owner.	Acreage.

2	6	Chemainus .....	Captain Watson. ....	22.0

And whereas thereupon the said Council procured an examination to be made by J. Herrick McGregor, Esquire (a British Columbia land surveyor, being a person competent for such purpose), of the said locality proposed to be benefited by the said works, and has also procured plans and estimates of the work to be made by the said J. Herrick McGregor, and an assessment to be made by him of the lands to be benefited by the said removal of the said obstructions in the said Solly's Creek and Somenos Creek, the proportion or acreage to be benefited by the said works being that hereinbefore mentioned, and the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the property hereinafter in that behalf especially set forth and described, and the report of the said J. Herrick McGregor in respect thereof and of the said removal of obstructions being as follows:—

“Commencing at a dead fir-tree situated on the property of Messrs. McPherson & Fullerton, and shown on the accompanying plan as Station 1, the Somenos Creek falls from this point down to mean high-tide at the Crofton Road Bridge a distance of 35.8 feet in 1,660 feet, giving an average grade of about 11.6 feet per mile. From this Station 1 to the Westholme Lumber Co.'s Bridge there is a maximum grade of 26.8 feet per mile. On this portion of the stream it does not appear to be advisable to work in the bed of the stream, with the exception of clearing out the grass and logs.

“From Station 2 to Station 4 it will be necessary to crib the south bank with a 36-inch dyke to prevent flooding and backing the water up Solly's Creek.

“If the bed of the creek is graded, in all probability it will become an endless source of expense on account of the gravel scour that will be deposited below all the bends, and if the straightening-out scheme were undertaken this would increase the velocity of the water and carry the scour down to Station 8, causing flooding at that point. The question of catching the gravel before the stream widens might be undertaken, but would be expensive, and need not be considered unless the improvements do not meet your requirements upon trial.

“In connection with this portion of the work, it will be necessary to carry the mouth of Solly's Creek down-stream a distance of 200 feet from its present position, and constructing a new bed for it along the foot of the slope for a distance of 400 feet; a good grade could then be carried right from the outlet back to the road-bridge by the farm-house.

“On the lower reaches of the creek there are a few gravel-beds want lowering to grade containing about 600 cubic yards, and also a small rock obstruction containing 23 cubic yards; with these removed and the creek-bed properly cleared of logs and grass, there should be no difficulty in getting on to the land at an early date, except in the event of a high tide combined with warm wet weather in the early spring, which is a combination which cannot be counteracted.

“The estimated cost of clearing the stream, cutting down the gravel-bars, trimming the banks, and putting in 1,400 feet of cribbing 3 feet high by 4 feet 6 inches, inside measurements, of 2-inch fir spiked to 6x6 cedar posts driven 3 feet in the ground and filled with gravel, would be \$1,500.

“The cost of our survey to date is \$453, and giving grades and supervising the work, if required, would be \$146.50; making the total cost of the work \$2,099.50.

And whereas the said Council is of the opinion that the removal of the obstructions preventing the free flow of water in the said creeks is desirable:

Be it therefore enacted by the Council of the Corporation of the District of North Cowichan pursuant to the provisions of the "Municipal Act":—

First: That the said report, plans, and estimates be adopted, and the said removal of the obstructions which prevent the free flow of the waters in the said Solly's Creek and the Somenos Creek, and the works connected therewith, be done and constructed in accordance therewith.

Second: That the Reeve of the said Corporation may borrow from the Bank of British North America, on the credit of the said Corporation, the sum of two thousand two hundred and ninety-nine dollars and fifty cents (\$2,299.50), being the funds necessary for the said works, as the same may be required from time to time to pay all fees, costs, charges, and expenses lawfully incurred and payable in respect of removing the obstructions to the free flow of water from the said Solly's Creek and Somenos Creek, including the cost of the engineer's examination of the said creeks, and of determining what land will be benefited by the carrying-out and completion of the said works, and the proportion in which the assessments shall be made of the various proportions of lands benefited by the said works, and including also the cost of advertising as provided by the "Municipal Act," and also the legal and other incidental expenses in connection with this by-law. The said Reeve is hereby authorized to pay or allow to the said bank interest on the said sum of two thousand two hundred and ninety-nine dollars and fifty cents (\$2,299.50) at the rate of six (6) per centum per annum, which may be paid or allowed in advance by way of discount or otherwise howsoever as they may deem best. The said sum of two thousand two hundred and ninety-nine dollars and fifty cents (\$2,299.50) shall be made payable on or before the 30th day of June, 1917, and the promissory note or notes of the said Corporation given therefor shall be made payable on or before the said 30th day of June, 1917, and may be renewed by the said Reeve from time to time.

Third: That the following lands will be benefited by the said works, namely:—
